2017-01-26   Integrate Rails logs with Elasticsearch, Logstash, and Kibana in Docker Compose (/2017/01/26/integrate-rails-logs-with-elasticsearch-logstash-kibana-in-docker-compose.html)

2016-12-01   Docker Hadoop Streaming Map Reduce Scala Job (/2016/12/01/docker-hadoop-streaming-map-reduce-scala-job.html)

2016-10-29   Dockerize a Rails development environment integrated with Postgresql, Redis, and Elasticsearch using Docker Compose (/2016/10/29/dockerize-rails-development-environment-integrated-with-postgresql-redis-and-elasticsearch-using-docker-compose.html)

2016-10-16   Track memory utilization of processes and graph the data via Chartkick, Highcharts, and Rails (/2016/10/16/track-memory-utilization-of-processes-and-graph-the-data-via-chartkick-highcharts-and-rails.html)

2016-10-09   Create an iOS Swift app to send your location to a Rails API and display on Google Maps (/2016/10/09/create-an-ios-swift-app-to-send-your-location-to-a-rails-api-and-display-on-google-maps.html)

2016-10-06   Elasticsearch autocomplete with a Rails API backend and an Angular frontend (/2016/10/06/elasticsearch-autocomplete-with-a-rails-api-backend-and-an-angular-frontend.html)

2015-12-15   Integrating a Rails API backend with an Angular frontend using token authentication (/2015/12/15/integrating-a-rails-api-backend-with-an-angular-frontend-using-token-authentication.html)

2015-12-09   Sending messages between a Swift webview and a Rails backend using Javascript (/2015/12/09/sending-messages-between-a-swift-webview-and-a-rails-backend-using-javascript.html)

2015-07-15   Rails 4: searching for related models with Elasticsearch and tagged content via acts-as-taggable-on (/2015/07/15/rails-4-searching-for-related-models-with-elasticsearch-and-tagged-content-via-acts-as-taggable-on.html)

2015-06-25   Rails 4 Elasticsearch geospatial searching and model integration (/2015/06/25/rails-4-elasticsearch-geospatial-searching-and-model-integration.html)

2015-06-13   Using JRuby native Queue to manage work across threads (/2015/06/13/using-jruby-native-queue-to-manage-work-across-threads.html)

2015-03-08   Using Redis sets (unique lists) to track relationships between users and their friends, and making friend suggestions (/2015/03/08/using-redis-sets-unique-lists-to-track-relationships-between-users-and-their-friends-and-making-friend-suggestions.html)

2014-11-16   JRuby: Bulk index Rails model data into Elasticsearch via Sidekiq (Redis queue) (/2014/11/16/jruby-bulk-index-rails-model-data-into-elasticsearch-via-sidekiq-redis-queue.html)

2014-11-07   Rails4 Javascript-integrated unit tests via PhantomJS, RSpec, and Capybara (/2014/11/07/rails4-javascript-integrated-unit-tests-via-phantomjs-rspec-capybara.html)

2014-09-02   Rails 4 Elasticsearch integration with dynamic facets and filters via model concern (/2014/09/02/rails-4-elasticsearch-integration-with-dynamic-facets-and-filters-via-model-concern.html)

2014-08-01   Hadoop, Pig, Ruby, Map/Reduce, on OSX via Homebrew (/2014/08/01/hadoop-pig-ruby-map-reduce-on-osx-via-homebrew.html)
